BREAKING NEWS – BREAKING NEWS – BREAKING NEWS –BREAKING NEWS

There were some important webinars last week for existing members. There was some confusion so we will be explaining more about this and add some additional information in this newsletter as well as communication via email..

---- IMPORTANT - IMPORTANT - IMPORTANT - IMPORTANT - IMPORTANT - IMPORTANT - IMPORTANT  
-----

We have a deadline of June 7th for existing members to make any changes at the rates explained last week so if you are unsure, then please contact support so you so not lose any ground or alleviate some fears knowing that you are right where you are supposed to be.

This date was chosen in order to make a clean transition from the old matrix to the NEW MATRIX as well as activation into new programs. Large Marketing Campaigns are beginning before weeks end, and we have to get everyone who is choosing to position into the new opportunity points, at a great discount of at least 50% off retail. If you purchased a boot camp in 2011, either #1 or #2, you can DEDUCT the fee for 1 of them off an upgrade to FOTW 2 through FOTW Package 1. If you paid for BOTH, you DEDUCT the Fees for BOTH Bootcamps off of a FOTW Pckg 2 purchase (ie. \$1,497 wholesale price of FOTW Pckg 2 - (MINUS) \$295 x 2; or about \$600 off the wholesale price. This will position you in ALL of the new opportunity price points below Net-chise.

REMEMBER, you can choose the status quo option to stay where you are as and end user for as long as you maintain your subscription status. However, understand that the compensation plan, and high profits will only be available under the new plans.

JMAP Net-chises can be purchased for \$3,997 through June 7, 2011. For this existing member promotion, anyone purchasing a JMAP Net-chise will not only be instantly qualified to earn \$5,000 per sale, but also receive a FOTW 2 package positioning you in all of the new FOTW product/price points. For your \$3,997 you get 2 seats at

JMAP University (or 1 seat at each of 2 trainings), where you will learn in great detail the JMAP Net-chise business model, and how to build a successful commercial enterprise; access to private support webinars and trainings for Net-chise only owners; any and all documentation in support of the Net-chise model; steep discounts off of JMAP 4 Business Products; and more.

The New Compensation Plan

It is important that you understand how the new compensation plan works, and the rules of said plan. The Stacked Leverage Income Plan (SLIP) is designed for you to be able to earn high profit instant commissions from your direct

sales of 7 Figure Factor, Freedom of the Web, and JMAP 4 Business Net-chise Products in amounts ranging from \$50 1 time immediate profit to \$5,000 immediate profit. Once you are positioned in the SLIP plan, you

In order to participate in this plan you must position in the plan by purchasing (at wholesale cost) the FOTW/7FF/JMAP 4 Business products individually or as a package. You can only earn commissions on

products/opportunities price points you have acquired. This will also apply to your customers, thus ensuring you that you first receive your investment back for each product/price point (you keep first 2 sales); then you activate the

leverage in that particular product when a level activator sale is made from your 3rd client to the appropriate Sponsoring Affiliate Member who is Senior to you in the Compensation plan. Once you have completed the ONE level activator sale for a particular product, YOU EARN 100% of all direct commissions after that for every direct sale you make. Each person who enrolls in any or/all of our programs will owe YOU a level activator sale for each product/price point they position in; and EACH LEVEL THAT OPENS UNDERNEATH one of your direct customers

will owe you a level activator sale as well. The leverage in this plan is enormous as it was designed to produce 6 figure monthly incomes for the aggressive/persistent/successful marketer.

ADDITIONALLY, once you have qualified for a particular product/price point you are entered into the bonus re-bate matrix for that product (a 3 x 10). This Bonus matrix is different than the current matrix in that the fixed per client per month bonuses are lower than the current setup (in the new compensation plan you are getting paid big up front, and directly on a monthly basis for system size your customer chooses to use). The Bonus Matrix is designed to create another residual income stream for those individuals/marketers who actively market and sell any and/or all of our products.

UNDERSTAND THIS WITH CERTAINTY; there is no other compensation plan in ANY Opportunity offered by ANY

company that is as lucrative and diverse as our products and plans PERIOD. While you may have some confusion

considering all of the product/opportunity point choices, ultimately, you will market via the 7FF funnel system and/or the JMAP 4 Business marketing pages, which present the business products and/or opportunity in digestible pieces.

IF you have ANY questions between now at June 7, 2011, BE SURE to send a ticket into support, and we will contact you personally to answer any questions you may have.

The June 7, 2011 date is a HARD DATE for the wholesale only pricing. We may be offering other launch specials throughout June; however, these prices will never be seen again, and they are my thank you to you for your patronage during our development stages.
